

RECOMMENDATIONS FOR THE EUROPEAN BATTERY SECTOR

D3.6 – Sectoral Skills Intelligence and Strategy – Release 1

Recommendations and considerations are mapped against the battery value chain or areas of interest and propose actions to improve the re-/up-skilling of the workforce or point out to issues that need to be considered when it comes to the skills agenda of the sector. They follow the structure of the sectoral intelligence part of the report.

RESEARCH AND DEVELOPMENT

Target groups: Vehicle manufacturers, battery producers, technology companies, R&D institutions.

Strengthening of competencies relevant to **electrochemistry**, particularly those related to **characterisation techniques**, **cell evaluation and validation**, **electrolyte development**, **thermal management**, **cell design**, **battery components**, **lithium-ion battery chemistry**, **battery design**, and **battery materials**.
